

Xos Highlights How its Flex Manufacturing Strategy is More Cost and Time Efficient

Leverages existing facilities and labor talent through strategic manufacturing partnerships

Enables Xos to assemble up to 5,000 vehicles annually per facility at a cost approximately 80% less than a traditional large-scale automotive manufacturing facility

LOS ANGELES, CA – June 17, 2021 – Xos, Inc., a leading manufacturer of fully electric Class 5 to Class 8 commercial vehicles ("Xos" or the "Company") that recently announced a planned business combination with NextGen Acquisition Corporation (NASDAQ: NGAC) ("NextGen"), highlighted how its flex manufacturing strategy, factory management systems and line design will reduce costs, development time and footprint across all stages of the manufacturing process.

For more information on Xos' flex manufacturing journey, please watch the following short video.

Xos' flex manufacturing strategy is an efficient and scalable strategy that leverages the Company's strategic partners' existing facilities and labor to assemble vehicles, enabling Xos to scale production in a capital efficient manner and in lockstep with market demand. Using this strategy, Xos will be able to assemble up to 5,000 vehicles annually per facility at a cost of approximately \$45 million dollars per facility build out - approximately 80% less than a traditional large-scale automotive manufacturing facility. Xos is already building production vehicles through these facilities today.

Xos has established relationships with leading global and national commercial vehicle manufacturers that provide facilities and labor to assemble its vehicles. Xos has partnerships with Metalsa, a leading global manufacturer of frame and chassis systems for commercial vehicles, and Fitzgerald Manufacturing Partners, a manufacturing body in the Southeast United States.

"Xos uses a flexible manufacturing approach that is leaner and faster than the legacy assembly line approach to manufacturing. The facilities' smaller footprint and the utilization of existing facilities and labor allows us to establish each flex facility in under one year, and for much less capital than a larger, traditional plant. We expect that we will be able to bring facilities online in lockstep with our order book and address market demand in real-time ahead of competitors with longer lead-time manufacturing strategies," said Dag Reckhorn, Xos' Vice President of Manufacturing. "Our flex manufacturing approach allows us to fulfill our customer orders faster and with greater cost efficiency."

Xos plans to close its previously announced business combination with NextGen in the third quarter of 2021.

About Xos, Inc.

Xos, Inc. is an electric mobility company dedicated to making fleets more efficient. Xos designs and develops fully electric battery mobility systems specifically for commercial fleets. The company's primary focus is on medium- and heavy-duty commercial vehicles that travel on "last mile" routes (i.e. predictable routes that are less than 200 miles per day). The company leverages its proprietary technologies to provide commercial fleets zero emission vehicles that are easier to maintain and more cost-efficient on a total cost of ownership (TCO) basis than their internal combustion engine and commercial EV counterparts. Cautionary Statement Regarding Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of the federal securities laws with respect to the proposed transaction between Xos and NextGen, including statements regarding the anticipated timing of the transaction and the products, customers and markets of Xos. These forward-looking statements generally are identified by the words “believe,” “project,” “expect,” “anticipate,” “estimate,” “intend,” “strategy,” “future,” “opportunity,” “plan,” “may,” “should,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this press release, including but not limited to: (i) the risk that the transaction may not be completed in a timely manner or at all, which may adversely affect the price of NextGen’s securities, (ii) the risk that the transaction may not be completed by NextGen’s business combination deadline and the potential failure to obtain an extension of the business combination deadline if sought by NextGen, (iii) the failure to satisfy the conditions to the consummation of the transaction, including the adoption of the Merger Agreement by the shareholders of NextGen, the availability of the minimum amount of cash available in the trust account in which substantially all of the proceeds of NextGen’s initial public offering and private placements of its warrants have been deposited following redemptions by NextGen’s public shareholders and the receipt of certain governmental and regulatory approvals, (iv) the lack of a third party valuation in determining whether or not to pursue the proposed transaction, (v) the inability to complete the PIPE investment in connection with the transaction, (vi) the occurrence of any event, change or other circumstance that could give rise to the termination of the Merger Agreement, (vii) the effect of the announcement or pendency of the transaction on Xos’s business relationships, operating results, and business generally, (viii) risks that the proposed transaction disrupts current plans and operations of Xos and potential difficulties in Xos employee retention as a result of the transaction, (ix) the outcome of any legal proceedings that may be instituted against Xos or against NextGen related to the Merger Agreement or the proposed transaction, (x) the ability to maintain the listing of NextGen’s securities on a national securities exchange, (xi) the price of NextGen’s securities may be volatile due to a variety of factors, including changes in the competitive and regulated industries in which NextGen plans to operate or Xos operates, variations in operating performance across competitors, changes in laws and regulations affecting NextGen’s or Xos’s business, Xos’s inability to implement its business plan or meet or exceed its financial projections and changes in the combined capital structure, (xii) the ability to implement business plans, forecasts, and other expectations after the completion of the proposed transaction, and identify and realize additional opportunities, and (xiii) the risk of downturns and a changing regulatory landscape in the highly competitive electric vehicle industry. The foregoing list of factors is not exhaustive. You should carefully consider the foregoing factors and the other risks and uncertainties described in the “Risk Factors” section of NextGen’s registration statement on Form S-1 (File No. 333-248921), the registration statement on Form S-4 discussed above, the proxy statement/prospectus and other documents filed or that may be filed by NextGen from time to time with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward looking statements, and Xos and NextGen assume no obligation and do not intend to update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise. Neither Xos nor NextGen gives any assurance that either Xos or NextGen, or the combined company, will achieve its expectations.
